NIDHISH TRIPATHI

B.Tech CSE Student | Web Development | Cybersecurity Enthusiast

Jaipur, Rajasthan | GitHub: github.com/nidhishtripathi | JK Lakshmipat University

EDUCATION

B.Tech in Computer Science and Engineering (CSE Core) - Third-Year Student

JK Lakshmipat University (JKLU), Jaipur, Rajasthan

Coursework: Intro to Cyber Security (CS1140), Computer Networks, Optimization, DBMS, Web Development

INTERNSHIP EXPERIENCE

Future Design - Intern (Web Development) | May 2026 - July 2026

Project: Omoide - Japanese JLPT Test and Learning Website

- Built responsive web & mobile UI across Next.js 15 and React Native (Expo) in a Turborepo monorepo.
- Implemented multi-script flashcard sessions (Kanji, Hiragana, Romaji, Jukugo) with instant scoring feedback.
- Designed dashboard widgets: active study streak tracking, weak words lists, and lesson module selectors.
- Created responsive authentication flows with client-side validation, toast alerts, and theme variables.

SELECTED PROJECTS

1. Omoide - Japanese JLPT Test and Learning Platform

Stack: Next.js 15, React Native / Expo, TypeScript, TailwindCSS, Turborepo, PostgreSQL, Neon, Docker

Spaced repetition flashcards, multi-script selectors, and personalized vocabulary analytics.

2. Lightweight ML-Based Intrusion Detection for Campus Networks (CS1140 Course Project)

Stack: Python, Scikit-learn, LightGBM, Pandas, NumPy | JKLU

Feature extraction and lightweight ML classification for resource-constrained campus & IoT network security.

3. Full-Stack MERN Personal Portfolio & Assessment Application

Stack: React 18, Node.js, Express.js, MongoDB, Mongoose ODM, Vanilla CSS

Course assessment project featuring responsive UI, theme toggling, MongoDB contact API, and CV downloads.

4. HackChain Labs - Cybersecurity Learning Platform

Stack: Python, Django, SQLite/PostgreSQL, Web Security Concepts

Hands-on lab environment exploring ethical hacking methodologies and defensive principles.

TECHNICAL SKILLS

Languages: Python, C, C++, JavaScript (ES6+), TypeScript, SQL

Frontend: React.js, Next.js, HTML5, CSS3, TailwindCSS, Responsive Design

Backend: Node.js, Express.js, Django, RESTful API Design

Databases: MongoDB, Mongoose ODM, PostgreSQL, Neon, SQLite

Cybersecurity & Networking: Network Traffic Analysis, IDS, OWASP Top 10, Port Scanning, Linux

Machine Learning: Scikit-learn, LightGBM, Pandas, NumPy, Feature Extraction

Tools: Git, GitHub, Docker, Postman, Vite, Turborepo, VS Code
